

GRAND OPENING OF OUR SKILL LABORATORY

The Dhanalakshmi Srinivasan Institute of Medical Sciences and Hospital, located on Perambalur Thuraiyur Road, Perambalur, Tamil Nadu, is renowned for its exceptional medical services and quality education. Recently, the institution has taken a significant step forward by establishing a state-of-the-art skill laboratory within its medical college. This laboratory is designed to offer students advanced, hands-on training in a variety of medical procedures and practices.

The newly set-up skill laboratory boasts modern equipment and mannequins that simulate real-life medical situations. Students will receive training in essential skills such as first aid, bandaging, Basic Life Support (BLS), Advanced Cardiac Life Support (ACLS), injection administration, bladder catheterization, breast examination, gynecological examination, conducting deliveries, newborn and infant care, as well as accident and emergency care.

The grand opening of the skill laboratory took place on December 2nd, 2024, with the Chancellor of Dhanalakshmi Srinivasan University, Shri.A.Srinivasan, inaugurating the facility. During the ceremony, he delivered a keynote address, emphasizing the importance of such advanced training in shaping the future of healthcare professionals. This initiative marks a major milestone for the institution, further enhancing its reputation as a leader in medical education and patient care.
